Bill of Quantities (BoQ)

SL	Item Descriptions	Unit	QTY	Unit Rate	#TW	Total Amount
1	uPVC Blind Pipe (Rising pipe/ Sand Trap Pipe)	RFT	554		1	-
	Supply of 1.5-inch (40 mm nominal diameter) uPVC pipe of D Grade (Water Class), conforming to BSTI standards and manufactured by approved brands such as RFL, National Polymer, AKIJ, or any other equivalent brand approved by the Engineer/IRB. The pipe shall be manufactured from 100% virgin unplasticized polyvinyl chloride (uPVC) raw materials and shall not contain any recycled or reprocessed materials, ensuring superior strength, durability, and long-term performance. The pipe must possess adequate physical, chemical, thermal, and fire-resistant properties suitable for water conveyance applications. The wall thickness of the pipe shall be within the range of 2.5 mm to 2.75 mm. The surface of the pipe shall be smooth, uniform, and free from cracks, blisters, voids, or any visible defects. Each pipe shall be of standard commercial length (typically 6.0 meters unless otherwise specified) and must comply with all relevant BSTI requirements. The rate shall include supply, transportation, loading, unloading, stacking at site, and submission of manufacturer's test certificates, complete in all respects as directed by the Engineer.					
2	PVC Strainer	RFT	16		1.00	-
	Supply of PVC strainer of 1.5-inch diameter and 8 feet length X 2 nos, D Grade (Water Class), conforming to relevant standards and manufactured from high-quality PVC materials. The strainer shall be manufactured from 100% virgin raw materials and shall not contain any recycled or reprocessed materials, ensuring strength, durability, and long-term performance. The strainer shall have a uniform wall thickness ranging from 2.5 mm to 3.0 mm and shall be of 10-slot ROBO type, with accurately machine-cut slots ensuring uniform spacing for effective filtration and water flow. The product shall be free from cracks, blisters, deformities, or any visible defects and must possess adequate physical and performance properties suitable for water system applications. The rate shall include supply, transportation, loading, unloading, and stacking at site, complete in all respects as directed by the Engineer. During delivery at site, any strainer found cracked, damaged, or defective shall not be accepted and must be replaced by the supplier at no additional cost.all complete as per the instructions of the Engineer-in-Charge					
3	Tube well Head	Nos	1		1.00	-
	Supply of No. 6 hand pump of heavy-duty type (National Polymer/RFL or equivalent approved), having a minimum weight of 28 ± 1 kg and fitted with a 900 mm long handle. The pump shall be provided with 2 (two) stainless steel (SS) nose pins, and all nuts and bolts shall be of stainless steel (SS) to ensure corrosion resistance and durability. The supply shall exclude base plate and piston assembly. The hand pump shall be free from any kind of defect and shall be suitable for long-term use in water supply systems. The pump shall be painted with 1 (one) coat of anti-corrosive paint followed by 3 (three) coats of green synthetic enamel paint of approved quality and shade. The name "Islamic Relief" shall be engraved on the tube well head in a durable and legible manner as per approved design. The rate shall include supply, transportation, loading, unloading, and all incidental works, complete in all respects as per the instructions of the Engineer in-Charge.
